### Top 5 Revenue Generating Segments

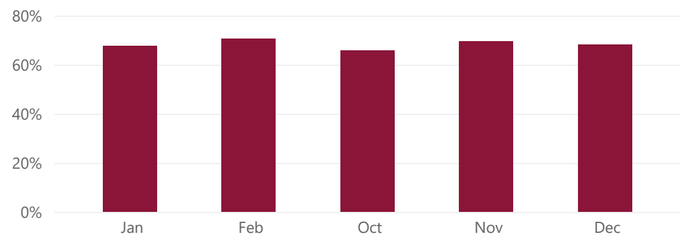

### Top 5 Performing Year

| Year | Total Revenue (QAR) | ADR(QAR) | RevPAR(QAR) |
|---|---|---|---|
| 2024 | 6,219,545,494.63 | 312.69 | 215.24 |
| 2023 | 3,820,070,820.96 | 237.74 | 136.78 |
| 2022 | 5,489,396,019.45 | 423.20 | 239.65 |
| 2021 | 3,706,904,774.04 | 260.12 | 174.47 |
| **Total** | **22,887,487,606.51** | **314.42** | **199.63** |

### Top 5 Occupancy Months

Occupancy % by Month Name

## 1. Revenue Leader

5-Star Hotels generated the highest cumulative revenue among individual accommodation segments, contributing approximately 59.5% of their combined revenue.

## 2. Best Revenue Year

2024 recorded the highest annual revenue for the overall Qatar+ category, at approximately QAR 3.14 billion.

## 3. Seasonal Performance

November and December recorded the strongest average monthly revenue, while July showed the weakest average monthly revenue.

## 4. Occupancy Opportunity

1 & 2-Star Hotels had the highest average occupancy rate (76.27%), despite generating relatively low revenue. This suggests an opportunity to improve room pricing and revenue per available room.

## BUSINESS RECOMMENDATIONS

1. Strengthen Premium Segment: Focus on maintaining service quality and pricing strategies in 5-Star Hotels.
2. Improve Low-Season Demand: Introduce promotions and attractive packages during June–August.
3. Optimize Room Pricing: Review pricing strategies in lower-category hotels to improve revenue without losing occupancy.
4. Maximize Peak Season Revenue: Use higher demand in November and December to optimize room rates and availability.
